

# CtA Task Team: Addressing Gaps in GBV Funding and Prioritization

Co-Facilitators: FCDO, UNFPA/GBV AoR, and IRC

# Purpose

From Oslo Funding Conference in 2019...

through to an IASC High Level meeting in 2021...

to outreach to individual decision makers...

to the creation of this Task Team...

**we're working to build solutions and momentum to implement them.**

# Next Step: Technical Meeting

- Getting beyond the GBV Expert Echo Chamber
- Discuss, sense check, agree on concrete recommendations
- Aim for specific actions to be agreed by seniors at the next high-level IASC meeting (intended for later this year)

# And then...

- Maintain the Cross-Stakeholder Task Team
- Annual technical meetings to tackle other funding challenges:
  - Improved tracking/tagging of GBV funding
  - GBV Risk Mitigation
  - ...and more!
- Future High-level meetings to maintain accountability
